Are you a faculty/staff/student of SEU?

No

Is an SEU faculty/staff member involved in the design or conduct of the study, or will they use the data for publication/dissemination (outside of the college)?

Are you collaborating with individuals outside of SEU?

Yes

Yes

No

Will SEU faculty, staff or students be engaged in the activities?
Some examples of engaged activities:
1) Conduct research under a grant.
2) Interacting or intervening with living individuals for the purpose of research by SEU faculty or staff.
3) SEU faculty or staff obtaining, releasing or permitting investigators to obtain individually private information for research purposes.
For more information on what constitutes engaged activities, see <http://www.hhs.gov/ohrp/regulations-and-policy/guidance/guidance-on-engagement-of-institutions/index.html>.

No

Yes

Yes

Will the study contribute to generalizable knowledge (e.g., presentations and publications outside of the SEU community)?
Note: Answer "no" for class projects that are not to be disseminated outside of the classroom. However, if your study includes vulnerable populations (e.g., minorities, individuals under 10) or questions of a personal nature (e.g., sex, alcohol, drug use), you may be required to submit an IRB application. For clarification, please contact the IRB before beginning the study.

No

You do not need SEU IRB approval.

No

No

No

No

Is the source of your data private?

Yes

You will need SEU IRB approval before beginning your study.

Yes

Your activity is considered to be research. Does the research obtain information from living individuals?

Yes

Will your research involve interaction or intervention with the individuals? This includes online and mail surveys.

Yes
